# BECOME AN ENTREPRENEUR: THE COMPANY PROGRAM

Over an 18 week period, students learn how to organize and operate a real business. Mentors from the local business community work with students to launch and run a small enterprise.

## What You'll Gain

- **Entrepreneurial Experience** – Students get hands-on practice in starting and running a real business, developing leadership, teamwork, and problem-solving skills.
- **Practical Skill Development** – They gain valuable skills in marketing, sales, finance, operations, and project management that are transferable to any career path.
- **Networking Opportunities** – Students connect with local business leaders, mentors, and peers, building a network that can support future education and career goals.
- **Confidence & Communication** – Through pitching, presenting, and collaborating, students strengthen their communication skills and gain confidence in their abilities.
- **Career & Education Readiness** – The program helps students explore interests, understand the world of work, and prepare for post-secondary opportunities with real-world experience.

"JA showed me that my ideas can have real impact. This program taught me how to lead with confidence, work with purpose, and turn ideas into action. The skills I have gained will stay with me long after the program ends."

~ Zakariya Mula-Hussain, 2025 Company Program Alumni
