Dual Credit General Information

As part of our commitment to *Inspire Success* in our students, Black Gold School Division (BGSD) offers a program which provides a dual credit opportunity to BGSD high school students. Through this program, students will earn college/university credits from a post-secondary institution *and* high school credits from their school by completing college-level coursework. This program is in partnership with Black Gold School Division, Lakeland College, Olds College, Portage College, Northern Lakes College, Southern Alberta Institute of Technology (SAIT) and Alberta Education.

Click here for a short video explaining more about Dual Credit! <https://bit.ly/3Cw5oBp>

Dual Credit Benefits

Dual credit helps students to:

- earn credits in high school ***and post-secondary institutions at the same time***, as well as earn credits that may lead to preferred placement and workplace certification.
- get a jump start on their post-secondary education while still in high school.
- potentially complete post-secondary with less financial debt. Through the Dual Credit Framework, high school students do not pay post-secondary tuition fees (only the cost of textbooks/supplies).
- gain confidence to succeed academically in a post-secondary environment.
- use the latest educational technologies which prepare them for the technological workforce.
- learn what college and university instructors expect, while still in familiar high school surroundings.

Costs

Black Gold School Division will pay all post-secondary school tuition fees for students enrolled in dual credit courses. Students will be responsible for purchasing all textbooks and required materials. These costs are indicated in the course descriptions. Information about purchasing the required materials will be provided to students once they have been accepted into the course.

Dual Credit Application Steps

Determine if Dual Credit is for You: Conversations between student, parent and High School Dual Credit contacts are an important first step in the success of a student in the dual credit program. Have a conversation with your school dual credit supervisor (may be the principal, counselor etc) about the course you are interested in.

Prior to registering, please make sure you:

- ☐ Have the **prerequisites** for the course.
- ☐ Have a **block of time** in your schedule dedicated to the course.
- ☐ Are **committed to completing the course**. Limited numbers of students can participate and the course requires a major commitment on behalf of the student, the parent, the high school and the Post-Secondary Institute.
- ☐ Understand it is **your responsibility to purchase any textbook & materials** required for the course - these can be purchased through the online college Bookstores, Amazon.ca or other online stores. Costs are listed in the course descriptions and purchase information will be provided to successful applicants. Black Gold School Division pays all tuition costs.

For students who meet these requirements principals will provide a recommendation to the BGSD dual credit lead teacher.

Application to the Dual Credit Program: For students who have been recommended, the BGSD dual credit lead teacher will email the **BGSD Dual Credit Application Form** to them; this must be completed online. Applications must be submitted prior to the deadlines below. **Available spots will be filled on a first-come first-served basis.** Late applications *may* only be accepted if space is available. *Incomplete forms will not be accepted.*

Application are open NOW - Deadlines:

Semester 1: June 24, 2023

Semester 2: November 10, 2023

Confirmation: Once your application is approved, you and your parent/guardian will **receive an email** with instructions to confirm your registration. This includes completing the **specific application required by the Post-Secondary School** delivering the course.

***Important note:** The post-secondary institution creates student accounts and communicates using **student emails**. Students are encouraged to use their BGSD gshare accounts on the application forms and to check these accounts frequently for messages from the post-secondary institution and the BGSD dual credit lead teacher.*

Introduction to Business

Course Description	Introduction to Business (MNGT200) - The Introduction to Business course provides you with tools to understand business functions including management, human resources, marketing, supply chain and personal finance. You will explore the Canadian business system and environment, and the importance of business ethics and social responsibility in an increasingly global environment. Working through a team project and business simulation, you will begin to develop a 21st Century skill set including communication, critical thinking, collaboration and effective teamwork. By the end of this course you should have the foundations for understanding business and business ownership.
Credits	High School Credits: 5 Post Secondary Credits: 3
Prerequisites	Prerequisites: Grade 11 students with Social 10-1/10-2 and CALM
Schedule	Scheduled: September 2023 - December 2023 & February 2024 - May 2024
Post-Secondary Information	 SAIT
Program Information	<p>The Intro to Business course is part of the following SAIT Pathways:</p> <ul style="list-style-type: none"> • Bachelor of Business Administration • Business Administration
Transferability	<p>A Transfer Alberta search (http://transferalberta.alberta.ca) shows that in the 2023/2024 school year the course transferred to Athabasca University, Concordia University of Edmonton, Mount Royal University, St. Mary's University, University of Lethbridge and the University of Regina.</p> <p>*Course/credit transfer acceptance is always determined by the receiving institute and this information is in no way a guarantee of transferability.*</p>
Course Assessments	Quizzes, Discussion Posts, Simulations, Group Project, Final Exam
Post-Secondary Program Prerequisites	<p>Students interested in pursuing the entire program after high school should confirm program prerequisites directly on the college websites:</p> <ul style="list-style-type: none"> • Bachelor of Business Admin • Business Administration Diploma
Textbook Costs	Textbook and Simulation Software ~\$120

Computer Science Coding & Robotics

Course Description	Computer Science Coding & Robotics (CSCR101) - This class will challenge your problem-solving abilities, and equip you with an understanding of how some of the computer programs you use on a regular basis were made. In addition to building fundamental programming skills, you'll be developing projects that have both digital and physical aspects, driven by a Micro:bit single-board computer, an Astro Pi Sense HAT (Hardware Attached on Top), and a set of basic robotics electronics components.
Credits	High School Credits: 5 Post Secondary Credits: 3
Prerequisites	Prerequisites: completed or enrolled in ELA20 & Math 20 (-1 or -2) - no coding experience required.
Schedule	Scheduled: Feb 2024 - May 2024
Post-Secondary Information	 Portage College
Program Information	The Computer Science Coding & Robotics course is not part of a specific program at Portage College.
Transferability	<p>A Transfer Alberta search (http://transferalberta.alberta.ca) shows that in the 2022/2023 school year the course transferred to Athabasca University, MacEwan University and University of Calgary.</p> <p>*Course/credit transfer acceptance is always determined by the receiving institute and this information is in no way a guarantee of transferability.*</p>
Course Assessments	Quizzes. 12 Project Based assignments. Students begin with some basic coding assignments and move to robotics in week 6. No coding experience is required.
Cost	The cost during the 2022-23 year may involve students purchasing a \$200 kit. However, there may still be funding to cover student's equipment.

Early Learning and Childcare Certificate Program

Program Description	<p>Would you like to be a positive influence in the lives of young people? Consider a career in early learning and child care. The Early Learning and Child Care Certificate Program will give you the training you need to work in this rewarding career. You will be trained to work with children from birth to 12 years of age in settings such as daycares, preschools, after-school programs, and private day homes. Graduates will also develop the skills to work effectively with children with exceptionalities. The cost to take courses in this program through your high school is free (other than the cost of books). To take this full program after high school, tuition and material costs would be approximately \$2600.</p>
Credits	<p>High School Credits: 5/course Post Secondary Credits: 3/course</p>
Prerequisites	<p>Prerequisites: minimum of ELA 10-1(60%) or 10-2(70%) to start taking a course in the program.</p> <p>To complete the full program students will require English 30-1 (60%) or 30-2 (70%) to take COMM1000 and ENGL1000.</p>
Schedule & Course Descriptions	<p>Students may take one or more courses from the program - as their schedule permits. They do not need to commit to completing the entire program. These are the first courses we are offering from this program. For a list of all the courses in the program click here</p> <p> Child and Adolescent Development (CDEV0101) - FALL (Sept. - Dec.) This course introduces students to the concept of life cycle and examines the principles, theories, and research findings that contribute to the understanding of normative development and learning in children from birth to early adolescence. Students will study the development of the whole child including social, physical, cognitive, creative and emotional development. Students in this course will also have an opportunity to study child development from a multicultural perspective. COST: Textbooks must be purchased by the student ~\$140 new but used may be available. eText may also be a less expensive option.</p> <p> Intro to Early Learning and Child Care (ELCC0100) - FALL (Sept. - Dec.) In this course students will learn what is required to work professionally and effectively in Early Learning and Child Care environments. Students become knowledgeable in the history of Early Childhood Education programs, professional ethics, codes of conduct, job descriptions and role clarifications. Students will learn their role in public policy advocacy, provincial certification requirements and quality standards in Early Childhood Programs. Socio-cultural diversity with a unique Aboriginal perspective is explored in these areas. In addition, policies on early childhood from the National Association for the Education of Young Children (NAEYC) and Alberta Child and Youth Services are covered. COST: Textbooks must be purchased by the student ~\$120 new but used may be available. eText may also be a less expensive option.</p> <p> Infant and Toddler Care (ELCC0104) - Winter (Jan. - Apr.) Children thrive in environments that consider the well being of the whole child. This course focuses on developmentally and culturally appropriate programming that is appropriate for infants and toddlers in private and group childcare environments. COST: Textbooks must be purchased by the student - cost to be announced in fall</p> <p> Learning Through Play (ELCC0103) - Winter (Jan. - Apr.) Play is essential to development because it contributes to the cognitive, physical, social, and emotional</p>

	well-being of children. This course discusses the importance of play for young children, and prepares students with the skills to develop developmentally appropriate play programs for children ages birth to twelve years. It also focuses on the importance of reinforcing creativity in young children. COST: Textbooks must be purchased by the student - cost to be announced in fall
Post-Secondary Information	 Northern Lakes College For more information about this specific program at Northern Lakes College click here
Transferability	Transferability of these courses is unknown. Northern Lakes Colleges offers the entire Early Learning and Childcare Program online.
Other Information	Additional courses from this program may be requested if students have already completed the ones offered. Taking the CDEV0101 Child & Adolescent Development course leads to certification as a Child Development Assistant which is required to work at a licensed day care program.

Education Assistant Program

Program Description	<p>The Educational Assistant Program at Northern Lakes College will give you the training you need for a meaningful career working with children in school settings. Responsibilities include helping students with exceptionalities by adapting their educational materials and programs. Educational Assistants also observe and report student progress to teachers and other related professionals. As well, they help students learn in one-on-one or small group situations, promote inclusion, and prepare instructional materials for teachers. The cost to take courses in this program through your high school is free (other than the textbooks). To take this full program after high school, tuition and material costs would be approximately \$5900.</p>
Credits	<p>High School Credits: 5 per course Post Secondary Credits: 3 per course</p>
Prerequisites	<p>Prerequisites: minimum of ELA 10-1(60%) or 10-2(70%) AND Math 10-C or Math 10-3 to start taking a course in the program.</p> <p>To complete the full program students will require English 30-1 (60%) or 30-2 (70%) to take COMM1000 and ENGL1000.</p>
Schedule & Course Descriptions	<p>Students may take one or more courses from the program - as their schedule permits. They do not need to commit to completing the entire program. These are the first courses we are offering from this program. For a list of all the courses in the program click here</p> <p> Introduction to Exceptionalities (EDAS0108) - FALL (Sept. - Dec.) Inclusion has led to the full integration of children with exceptionalities into many schools. This, in turn, has created a greater need for individuals with special training. This course examines the philosophy and educational concepts associated with inclusion. Students will have the opportunity to develop in-depth knowledge of strategies and interventions in the field of special education, and examine the use and application of Assistive Technology. The course will also focus on the effects of medications on behavior and learning, as well as the recognition and appropriate responses to many common health issues within inclusive classrooms and early learning environments. COST: Textbooks must be purchased by the student ~ \$95 new but used may be available online. eText may also be a less expensive option.</p> <p> Child and Adolescent Development (CDEV0101) - FALL (Sept. - Dec.) This course introduces students to the concept of life cycle and examines the principles, theories, and research findings that contribute to the understanding of normative development and learning in children from birth to early adolescence. Students will study the development of the whole child including social, physical, cognitive, creative and emotional development. Students in this course will also have an opportunity to study child development from a multicultural perspective. COST: Textbooks must be purchased by the student ~ \$140 new but used may be available online. eText may also be a less expensive option.</p> <p> Effectively Managing Student Behaviour in Educational Settings (EDAS0102) - WINTER (Jan. - April) Children learn best when their self-esteem is healthy and the educational expectations are clear. This course will</p>

	<p>focus on developing an understanding of the classroom as a dynamic learning environment in which the teacher assistant is an essential part; a philosophy of discipline that forms a basis for dealing effectively with children experiencing behavioral difficulties; and strategies and practical approaches for classroom management. Methods of pupil supervision; proactive approaches to discipline with an emphasis on problems solving and effective interventions; strategies for dealing with inappropriate confrontational behaviour in a productive life enhancing way; and observation and documentation of student actions in behavioural terms will also be included. Registration Deadline: Mid November COST: Textbooks must be purchased by the student - textbook costs to be announced in the fall.</p> <p> Practicum 1 & Seminar (EDAS0109) - WINTER (Jan. - April)</p> <p>The practicum experience provides the opportunity for students to meld theory with practice and refine their skills as educational assistants. Through facilitated group discussion and participation in 15 hours of seminar, students will also have the opportunity to link the classroom learning with field-related experiences and issues. Students with experience in the classroom may apply for advanced placement for this practicum. Registration Deadline: Mid November COST: no cost</p>
Post-Secondary Information	<p> Northern Lakes College</p> <p>For more information about this specific program at Northern Lakes College click here</p>
Transferability	<p>Transferability of these courses is unknown.</p> <p>Northern Lakes Colleges offers the entire Education Assistant Program online.</p>
Other Information	<p>Additional courses from this program may be requested if students have already completed the ones offered.</p> <p>Taking the CDEV0101 Child & Adolescent Development course leads to certification as a Child Development Assistant which is required to work at a licensed day care program.</p>
